COMPLETE AND PROGRESSIVE

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

ROBERT MORTON BALDWIN

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille Directory contains the following information:

1. THE PREFACE contains historical and civic information with photographs of general interest.
2. THE BUYERS' GUIDE and CLASSIFIED BUSINESS DIRECTORY SECTION contains display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.
3. THE NUMERICAL TELEPHONE DIRECTORY contains telephone numbers arranged in numerical sequence.
4. THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE contains a complete directory of streets and avenues, properly located, gives the names of all householders, arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.
5. THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.

Explanation

All persons over 18 years of age living in the community are listed.

The wife's name is shown in parentheses after the husband's as follows: Smith Robt R (Mary L).

The number of children under eighteen years of age is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

In the resident directory home ownership is designated by ® as follows: Smith Robt R (Mary L) 3 ®. Renters are shown by the omission of the ®.

In the householders' directory ownership is shown by the same designation as follows: 210 Main Smith R R ®.

In the case of a natural widow this fact is shown with the name of the deceased husband in parentheses, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robt R (Mary L) clk Hub Clo Co.

The residence of each person is shown by "h" denoting householder or head of a family and by "r" denoting other persons in the home. Only one person in each home is listed with an "h". Therefore, a circular mailed to each householder marked "h" will reach every home in the city.

Married women engaged in some responsible occupation are listed individually in addition to the regular listing with the husband as follows: Smith Mary L (Mrs Robt R) bkpr Hub Clo Co r 210 Main.

The words street and avenue are understood.

1377392

Persons living outside the city limits and receiving their mail in the country are marked RD.

Telephone numbers are designated in the resident directory at the end of the line with the designation Δ as follows: Smith Robt R (Mary L) 3 ® clk Hub Clo Co h 210 Main Δ498.

In the householders' directory the telephone number of each house is given at the end of the line as follows: 210 Main Smith R R ®—Δ498. In this division of the book each street is listed alphabetically and each house on the street is listed according to number. All street intersections are shown at the proper places with the names of the cross streets. In case there is no telephone shown the nearest telephone on the street may be found.

In the numerical telephone directory the telephone numbers are listed in numerical order.

In the business directory and buyers' guide the various business and professional firms are arranged according to their line of business and merchandise sold. Nationally advertised brands are designated with a ★. For example under the heading automobiles will be found the following classifications: ★FORD—Jones Mtr Co 110 Elm. The buyers' guide carries the printed message of the city's leading business and professional firms.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher. It shows the exact population of the city and environs at the present time.

Hammond, La.

JOHN MORRISON
Mayor
Hammond, Louisiana

LOCATION

Hammond, a very attractive town with many oak and crepe myrtle trees lining its streets, is located in Tangipahoa Parish in southeast Louisiana, at the intersection of U. S. Highways 51 and 190 and Interstate Highway 55. It is 42 miles from Baton Rouge, the Capitol of Louisiana and 60 miles from New Orleans, the nation's second port.

Hammond is located in the heart of the famed Ozone Belt of Southeast Louisiana. Because much of Louisiana is very humid, the Ozone Belt attracts people in search of a healthful climate and the advantages of a bracing atmosphere naturally cooled by Gulf breezes, and from which excess moisture is removed by the pine trees in the area.

The Illinois Central Railroad divides the town east and west. The

AERIAL VIEW OF HAMMOND

trading area includes a radius of 30 miles with a population of 50,000. Hammond is a market center for a heavily populated farm area. Though it is known as the "Strawberry Capitol of the World", the dairying and poultry industries have both developed rapidly in the last decade.

HAMMOND ZONE CONSTRUCTION GROWTH

1958	30	765,767
1959	20	217,979
1960	56	2,098,893

CLIMATE

Hammond has a mild climate. The average low temperature in 1956 was 51.0 degrees and the average high was 81.8 degrees. Rainfall for the year was 63.26 inches. There were 160 clear days, 104 partly cloudy days and 101 cloudy days. Thus, a maximum number of work days for outdoor enterprises are assured.

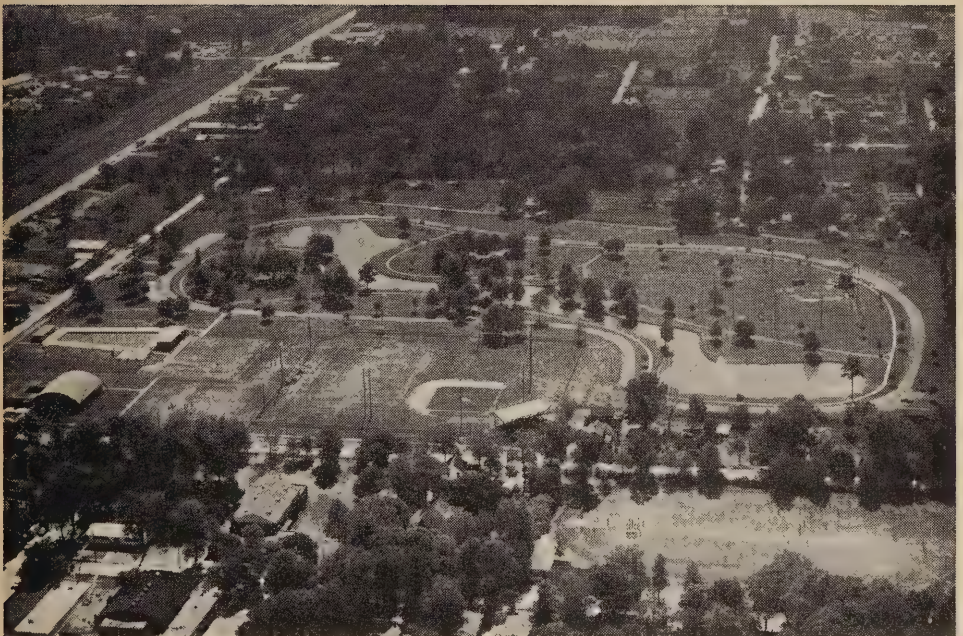

GOVERNMENT

Hammond has a commission form of government with three officials elected for a term of four years—Mayor, Commissioner of Finance and

Commissioner of Streets and Parks. There are seven appointed officials and the recreation and airport commissioners. Located in the City Hall are the offices of the Mayor and Council, Water and Tax Departments, City Business Office, American Red Cross, City Court, Veterans Affairs and Association of Commerce.

POLICE

The police department consists of 13 paid men. There are two completely equipped patrol cars and whenever necessary, supplementary service is given by the Sheriff's office and the State Police. Therefore the city has continuous police protection.

ZEMURRAY PARK

SWIMMING POOL

FIRE

The fire department consists of eleven paid and forty volunteer members. There are 7 fully equipped pieces of apparatus and over 250 fire hydrants which have been installed in accordance with the Fire Underwriters Specifications making it possible for Hammond to have lowest possible insurance rates.

TAXES

The City tax is 25 mills. Current bonded indebtedness of Hammond is \$764,235.93 as of June 30, 1961. The State offers 10 years of tax exemption on new industry. Assessments are determined by the Parish Assessor elected to office. Property assessments vary from 25% to 30% of actual value. Homestead exemption for parish and state taxes in the amount of \$2,000 is available to residents. Veterans in Tangipahoa

Parish have the privilege of an exemption of \$5,000 for five years. Parish rates vary from year to year. For 1960 it was 61 $\frac{3}{4}$ mills, the state tax rate is 5 $\frac{3}{4}$ mills.

EDUCATION

Schools

Grade schools — 6, enrollment — 3,038, teachers — 96; Junior High — 3, enrollment — 427, teachers — 14; High School — 3, enrollment — 1,285, teachers — 145. A new elementary school on 10 acres of land and a new Jr. High on 20 acres of land will be constructed soon. The Jr. High will eventually become another High School.

Colleges

Southeastern Louisiana College, Hammond-Louisiana State University, Baton Rouge and New Orleans-Tulane University, New Orleans.

Southeastern Louisiana College, established in 1925 is a four-year accredited college, state supported, with an enrollment of 2,600. The campus covers an area of 1,117 acres with beautiful modern buildings and beautiful landscaping. The college is co-educational. It offers courses in all of the basic sciences, languages and social sciences, teacher training, music, business administration, agriculture, industrial arts. Degrees may be obtained in Liberal Arts, Education or Applied Sciences. With the summer of 1961, the college offered a graduate program in Education. Southeastern High School accommodates thirty pupils in each grade for supervisory and administration functions connected with training teachers. A new administration building, classroom building and an agricultural building have just been completed. More Federal funds have been loaned to the college to construct much needed dormitories,

which are now under construction. The college is also building a new \$800,000 library. The Methodist, Baptist and Catholic Churches have student centers on land opposite the college grounds.

CIVIC DATA NEWSPAPERS

Hammond has two weekly newspapers — Hammond Vindicator and the Sun; one daily — the Daily Star. The New Orleans and Baton Rouge daily papers are delivered in Hammond.

RADIO STATION

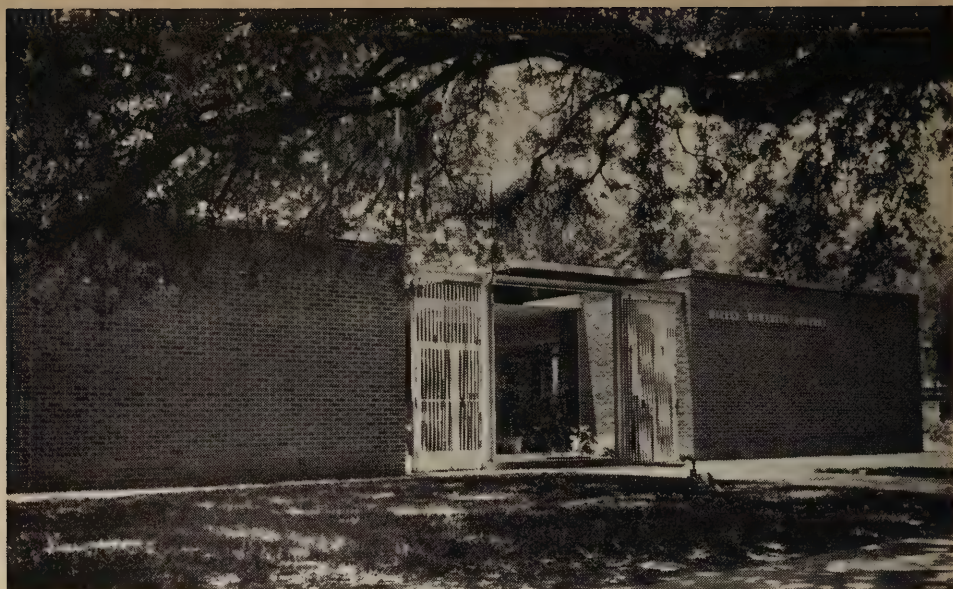

WFPR is the Hammond station situated between Hammond and Ponchatoula.

TELEVISION STATIONS

HOTELS, MOTELS AND RESTAURANTS

Hammond has one hotel — Casa de Fresa, N. W. RR Ave. Rates range from \$4.50 and up.

The Motels are: Cedar, Day, Dixie, Hammond, Hi-Lo, Magnolia, Villa Moderne, Pelican and Rainbow. Rates range from \$4.08 and up. There are 31 restaurants in Hammond; also 4 drive-ins.

HOSPITALS

The Seventh Ward General Hospital with 60 beds was completed in 1960. The hospital is fully equipped with 2 operating rooms, 1 emergency room and fracture room, 2 delivery rooms, laboratory, x-ray, blood bank, some therapy treatment, morgue,

laundry and a cafeteria. Each room has complete oxygen facilities. The hospital records were commenced with the idea of the hospital becoming fully accredited shortly. The hospital is already a member of the Louisiana Hospital Association and the American Hospital Association. The staff is comprised of all the doctors of this ward. There is a large consulting staff from New Orleans and Baton Rouge. The hospital is completely modern. Lallie Kemp, a state operated hospital, is located 9 miles from Hammond in Independence. It is well staffed with doctors and nurses; also ambulance service.

CHURCHES

There are 28 churches of 16 denominations — Baptist, Catholic, Christian, Episcopal, Methodist, Presbyterian, Seventh Day Baptist, Seventh Day Adventist, Lutheran, Assembly of God, Church of God,

Church of Christ, Church of Jesus Christ of Latter Day Saints, Jehovah Witness, Holiness and Christian Scientist.

CIVIC CLUBS

Rotary, Kiwanis, Lions, Lioness, Civitan, Civinettes, Jaycees, Jaycee Jaynes, Exchange, Business & Professional, Altrusa.

RECREATION

Parks, Swimming Pools, Golf Course, Fishing and Hunting

Hammond's recreational facilities are very good. There are five parks with playground equipment. Zemurray Park has a beautiful modern swimming pool and dressing rooms; a community center which is used for dances, games and meetings; two ball fields; playground equipment; picnic areas; an artificial pond which is always stocked with fish where

anyone may fish except for the restocking periods. The Jaycees have a fishing rodeo for the children annually. Another park is the S. Orange St. Park on the eastside of town. It has playground equipment including tennis courts, ball field, etc. There is a park in the northwest section with playground equipment and wading pool. There is a playground and swimming pool on Moon-ey Ave. and a lighted softball field and playground on N. Orange for the colored. Every week there are teenage dances at Reimers' Memorial Building. Also, Reimers' Memorial reserves a night for the Golden Age group. Southeastern Louisiana College and Hammond High provide a complete athletic program. The Oak Knoll Country Club has a nine hole golf course plus other recreational facilities. The College Bowling Lanes has just been completed and the Tangi Bowling Lanes will be completed in the near future.

HAMMOND LOOKING SOUTH

7TH WARD GENERAL HOSPITAL

LIBRARY

Miller Memorial Library contains 10,000 to 11,000 volumes and can borrow from the Parish and State Libraries; films are loaned. The Library personnel is available to give reviews on books to clubs and organizations.

DAIRY FESTIVAL

One of the most interesting buildings in Hammond is the Coliseum built by the Southeastern Louisiana Dairy Festival and Livestock Show on the SLC campus. It seats 5,000 and is the only coliseum with a full opera size stage constructed within it. The Coliseum has a portable basketball floor, which is used for the college home games. The live-stock barn will accommodate 400 head of cattle. The Southeastern Louisiana Dairy Festival has its annual event in May. In May, 1960, the Straw-

berry Festival was held in the Coliseum for the first time in over 10 years. A parade with participants from all sections of the strawberry belt was held in the middle of the day. Plans are to have this event each year hereafter.

THEATRES

There are three motion picture theatres — Columbia, Ritz and Mitchell Drive-In.

COMMUNITY CONCERTS

Southeastern College offers many cultural activities to the general public. In 1958, the Hammond Community Artist Series was organized with Mrs. Fred Reimers serving as chairman. This organization arranges to bring well known artists to Hammond for 3 or 4 events each year.

SPORTS

Southeastern Louisiana College football games draw the interest of this area; also, the High School teams create much interest in this sport. Other sports are the Southeastern basketball games, Little League and Babe Ruth baseball games, Little Conference football under the sponsorship of the Jaycees, drag races held the 4th Sunday of each month at the Airport by the Hammond and Ponchatula Lions Clubs. The Jaycees sponsor car races twice a year. Golf tournaments are held at the Oak Knoll Country Club. Bowling teams are being formed for this new sport in town.

FISHING AND HUNTING

There is a diversity of fishing and hunting. Within a short distance from Hammond, either east or west, fish may be caught in one of the

many fresh water streams in the area. South of Hammond about 18 miles is Manchac Pass which connects Lakes Maurepas and Ponchartrain. This Pass is the scene of two fishing Rodeos sponsored by the Hammond Lions Club and Knights of Columbus. These bodies of water are famous for the fine fishing, shrimping and crabbing. Large open areas provide excellent water facilities for boating and water skiing. The area around Hammond has an abundance of birds and small game. It is also one of Louisiana's best sections for deer hunting.

AGRICULTURE

Hammond is the center of America's greatest strawberry belt. Hundreds of cars of this delicious fruit are shipped to all parts of the country each spring. The farmers supplement their income from strawberries

COMMUNITY CENTER

CITY HALL

with crops of beans, peppers, cucumbers, eggplants and squash each spring and fall. Another leading industry is dairying. Large quantities of milk are shipped from local markets each year. The chicken industry is fast becoming one of the leading industries. Large flocks of chickens are becoming very predominant throughout the farm area. Within the past few years two hatcheries have built new plants. Large shipments of broilers and eggs are shipped daily through local agencies. Tangipahoa Parish has an income of more than \$17,000,000 from strawberries, milk, beef cattle, poultry and eggs and forestry annually. The dairy and chicken industries have surpassed the strawberry in agricultural income for Tangipahoa Parish.

COMMERCIAL RETAIL SALES FOR TANGIPAHOA PARISH

January, 1960	4,118,750
January, 1961	4,450,100

The main commercial district is centrally located with approximately 12 blocks covered by businesses. A commercial area in the western section is building up rapidly. A drive-in branch of the Guaranty Bank was completed in 1960. Though many of the buildings in the main business section were in existence at the turn of the century, the buildings have been modernized and could not be recognized as the same. In the business district, one will find all types of stores: department, ladies wearing apparel, men's wearing apparel, furniture, hardware, jewelry, drug, shoe, variety, appliances, sporting goods, and many other types of businesses.

INDUSTRY

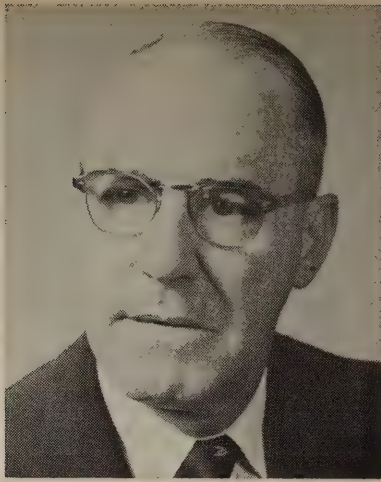

The City Officials and the Industrial Committee of the Hammond Association of Commerce are constantly working for new industry to locate in Hammond. One such industry is the Louisiana Hatcheries, who completed construction of their new plant late summer of 1959. The Louisiana Hatcheries employ 110 people plus 80 who raise chickens. The payroll is approximately \$500,000 annually. This industry did not move into Hammond under BAWI. Sledge-Townsend, a growing Hammond feed company, increased its operations in 1959 and constructed a new building under BAWI.

Reimers-Schneider Lumber Co. is the largest lumber mill in this area. There are 85 employees with a pay-

roll of \$250,000 annually. Hammond-Baton Rouge Brick Company, another large industry, has 50 employees with a payroll of \$200,000. Oliver Treated Products Company, a creosoting post and pole plant, has 55 employees with an annual payroll of \$175,000. Hammond Packing Co., a frozen food plant, has 150 to 200 employees with an annual payroll of \$35,000. Billups Petroleum Company employs 100 people with a payroll of \$500,000 annually, Tangi Hatcheries has 15 employees with an annual payroll of \$46,800. Sledge-Townsend Feed Company employs 75 people with a payroll of \$234,000. Besides these industries there are quick freezing plants, fruit processing factories, a manufacturer of veneer for crates, other lumber mills, concrete block plant, two

Hammond has several zoned industrial areas with some industrial sites available for lease or purchase. The State Board of Commerce and Industry with the approval of the Governor may contract with the owner of any new manufacturing establishment in the State (or with the owner of any addition or additions to any manufacturing establishment already existing in the State) for the exemption of both State and local ad valorem taxation of either new plants or additions to existing plants. Under the INDUSTRY INDUCEMENT PLAN, the City of Hammond may float bonds for the purpose of purchasing industrial plant sites and constructing plant buildings.

UTILITIES

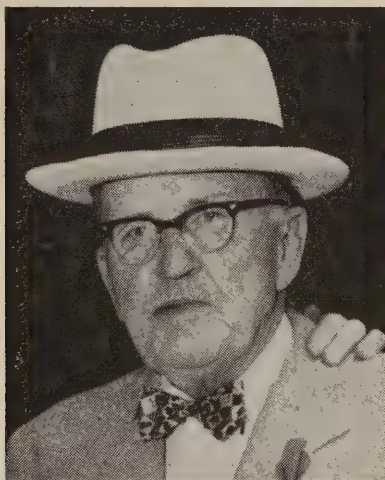

The Louisiana Power and Light Company services Hammond and the Parish with electricity.

The Louisiana Gas Company serves the community with natural gas.

The water supply for Hammond is obtained from three wells of artesian water 99% pure.

LABOR

The area enjoys amicable labor conditions. Within a radius of thirty miles, there is a labor pool of 100 women who can be trained through the employee training program. This program can be set up by the State Department of Education at no cost to the manufacturer. Because Hammond is located in an agricultural region, its industrial labor supply is, as a rule, not totally dependent upon industry for its livelihood. Thus, should a slack period descend upon industry, the workers are equipped to earn their living temporarily from the soil. There is an approximate total of 22,000 men and women in the Tangipahoa Parish Labor market.

ZONING AND PLANNING

Hammond has zoning for industrial, residential and commercial districts. There is a Planning Commission to study growth and assist in developing Hammond.

TRANSPORTATION

Rail

Hammond lies on the main double track line of the Illinois Central Railroad, the "Main Line of Mid America". It has excellent freight connections with Chicago, St. Louis and New Orleans. Car lots can be placed on two express freight trains daily, one north and one south, and it is possible to get less than 24-hour service to Chicago on carload lots. Store delivery and pick-up service is provided for freight and railway express.

Truck

Hammond is served daily by six motor freight lines operating in four directions.

Bus

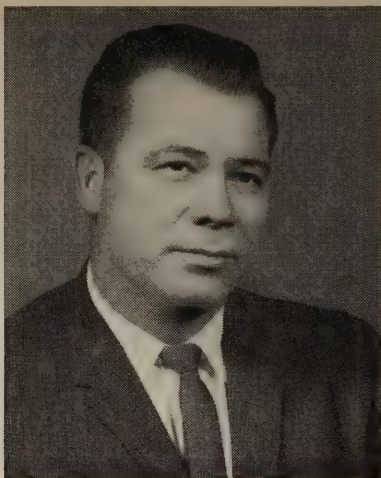

Greyhound Lines operate ten northbound busses and ten southbound busses on U. S. Highway 51 daily, plus daily busses to Baton Rouge. A local bus line runs on an hourly schedule from Kentwood to Ponchatoula serving locally about 40,000 people. The new 4-lane Highway 55 (Federal) and the new Federal Highway from Slidell to Baton Rouge will intersect approximately three miles southwest of Hammond thus giving excellent motor transportation in all four directions.

Air

The Hammond Airport, a former Army air field, provides a 5,200 foot concrete runway and two 5,200 asphalt runways. Hammond is within

Water

Hammond is just 60 miles from New Orleans, the nation's second port. Barge connection can be made on the Mississippi at Baton Rouge which is 42 miles from Hammond.

HAMMOND ASSOCIATION OF COMMERCE

The Hammond Association of Commerce (Chamber of Commerce) was organized in 1950. The objectives of the organization is to promote the civic, industrial, commercial and general welfare of the City of Hammond and the State of Louisiana.

The president, vice president and treasurer are elected to serve one

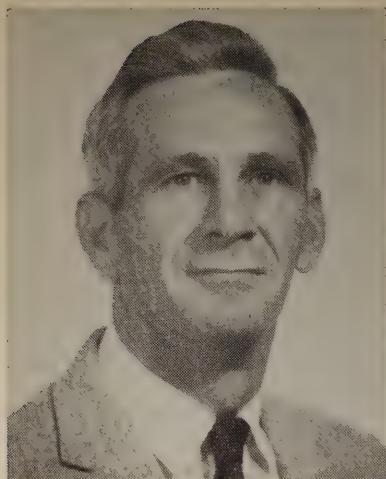

year. The Board of Directors consists of 15 members plus the immediate past president as ex officio member. The secretary is the only paid employee.

Each year 5 men are elected to serve for 3 years on the Board. Working with the Board of Directors are 10 committees appointed by the president. The committees are: Industrial, Agricultural, Finance, Publicity, Merchants, Membership, Legislative, Executive, Educational, Community Improvement. Each committee works on various projects during the year.

PETER HAMMOND, FOUNDER HAMMOND, LOUISIANA

Peter Hammond was born in Hamnerdel, Sweden, 1798. At the age of fourteen, when the United States and England were engaged in the

BONACCORSO BROS.

MARTIN J. BONACCORSO

Distributors of BORDEN'S Fine Dairy Products

war of 1812, Hammond sailed for the United States. The British captured the boat on which he had passage, took him to England as a prisoner, and confined him in Dartmoor, England's military prison, in Devonshire.

In 1825, after the completion of his house, Hammond married Caroline Tucker, formerly of Boston, Massachusetts, then living in Ponchatoula, with her father, William Tucker. From that time on Hammond made his home on the range that was soon to bear his name. For his young wife he built a substantial hand-hewn oak log house — a story-and-a-half structure, with a stairway in the back hall leading to the upper floor. In front was a spacious living room, and on each side of the hall were the bed rooms. The kitchen and the dining room built apart from the house and to the rear were the custom of that day. Also, separated from the house was a warehouse, in which Peter Hammond had a store, which was then called a commissary. About one hundred yards from the house was a row of log cabins, the living quarters of his slaves, with whose labor he produced large quantities of tar and, also as a by-product, re-tarred coal, which he shipped to New Orleans and sold as fuel.

Hammond also cut and shipped long, straight timbers, which were used as mast poles for sailing vessels. Sometimes these timbers were one hundred feet or more in length and brought a fancy price.

During the following twenty-nine years — previous to 1859 — the surrounding country for miles around Hammond's house was becoming a well-populated country side. After hauling these products by ox team to Springfield, Peter Hammond shipped them from Springfield by boat to New Orleans and brought back quantities of calico, hardware,

gun powder to be molded into bullets, flour, salt and other articles that he could trade or sell in his commissary. For miles around everyone knew him and came from all directions to Hammond to buy his wares or to trade furs for commodities that he had for sale. Peter Hammond's place became the center of the surrounding country. The once-rutted trail now became a well-traveled road.

Peter and Caroline Tucker Hammond had a family of seven children: one son (William) and six daughters (Kate, Emeline, Sarah Ann, Clorinda, Maria and Luvenia). Sarah Ann Hammond married Jefferson L. Hughes. Their grandchildren, great grandchildren and great, great grandchildren are residents of Hammond. After the death of Jefferson D. Hughes, Sarah Ann Hammond Hughes married Frank M. Robertson. One of their children, Mrs. Eva Robertson McFall, has always been a resident of Hammond.

In most of his undertakings Peter Hammond had been successful. He had acquired land, money and a family. Still he had another dream which to him and to all others seemed hopeless. His wish was to see a railroad built through his land. Numerous plans and surveys had been made and rejected. In 1835 a survey made by George Dunbar was accepted. At last Hammond would realize his dream! Capital appeared. After securing the right of way, slave owners in this section donated the labor necessary to cut "the right of way". Construction started. There were favorable solutions for engineering problems. By 1854 — nineteen years after Dunbar had made his survey — The New Orleans, Jackson, and Great Northern Railway was completed from New Orleans to the Mississippi line, running to Jackson. With the completion of the railroad in 1854, the little settlement of Hammond's Crossing, so-called

JACK S. MASHBURN
President & General Manager

JACK MASHBURN INC. — 1203 W. THOMAS

until after the Civil War when the name was changed to Hammond, was showing signs of habitation. Here and there stores and shops were under construction.

Peter Hammond retained most of his land until 1859. It was then that Mr. Charles E. Cate from New Orleans and others began to purchase land from Hammond at the price of thirty-five cents an acre.

In 1861 war started. To Peter Hammond it proved disastrous. At this time he owned a number of fine horses and cattle, which the Yankees took as they came through. His slaves met the same fate, with the exception of two — Uncle Gabe and Aunt Patsy, who stayed with him as long as they lived. Hammond lost a great deal of paper money that he had buried in the ground. Insects destroyed most of it. What remained was sent to New Orleans later for "remaking". The silver and the gold were intact. At the close of the Civil War Hammond was around the age of sixty-seven, but he had the perseverance to make another start. In addition to his timber lands, he still had many acres of farming land — seventy-five to eighty — and with hired labor and his two remaining slaves he soon had the land under cultivation. For many years his principal livelihood had been that of farming, for with the beginning of the war he had discontinued making

tar.

At the age of seventy-two — 1870 — he died of an infection, caused

from using arsenic as a spray for his fields. He died a man respected and beloved by all who knew him. Caroline Tucker Hammond continued living at the Hammond homestead, with her daughter Clorinda Hammond Desouge. At the time of her death some years later she was in New Orleans for medical treatment and stayed with her daughter, Luvenia Hammond Holmes. Her body was brought to Hammond for interment.

By two acts of sale, one passed in 1891 and the other in 1894, the Hammond heirs sold the old home and surrounding land to J. Q. Adams, but the graveyard was reserved and still stands in the name of the heirs.

Nineteen years after the death of Peter Hammond — 1889 — the town of Hammond was incorporated by act before a notary public, under the then existing laws. The town was reincorporated in 1899 under the new laws governing the corporation of townships, but neither its name nor its territorial limits were changed.

This early history of Hammond was compiled by the descendants of Hammond and old residents. The facts are from family Bibles, court records, newspaper clippings, old records, and memory. This article, with slight changes, appeared in the Hammond Vindicator, October 22, 1948.

Numerical Telephone Directory 1962

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The publishers are very careful in using these numbers but do not assume any responsibility in case of error.

Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.

Numerical Telephone Directory

1962

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The publishers are very careful in using these numbers but do not assume any responsibility in case of error.

Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
